SUMMARY

Web Developer & IT Professional with 4 years of experience building and maintaining digital solutions for the healthcare sector. Leverages a strong IT Support background to troubleshoot complex full-stack issues and optimize server-side performance.

EXPERIENCE

IT Support & Web Developer   04/2022 - Present
Bukit Raya

- Developed "Fast Claim," a bespoke web application that automates BPJS insurance document organization, significantly reducing manual administrative processing time.
- Engineered "Kulapor," a reporting tool that interfaces with the SIMRS Khanza database to generate dynamic Excel reports for patient data management.
- Architected and Implemented "Invents," an internal asset management system to track and audit company hardware and software resources.
- Managed Network Infrastructure using MikroTik routers, ensuring 99.9% network uptime and stable connectivity for all clinical and administrative departments.
- Make Graphic Designs for corporate branding and internal communication materials.

Web Developer   08/2021 - 10/2021
Memo Indo Media ↗

- Contributed to Full-stack Development for diverse client projects, including a Point of Sale (POS) system for MS Glow and a comprehensive Accounting System.
- Developed a Posyandu Information System to digitize community health monitoring and data entry.
